Experience

.NET Developer Intern

Zobi Web Solutions

Ahmedabad, India 11/2025 – 02/2026

- Developed web applications using ASP.NET Core, EF Core, implementing layered architecture and Dependency Injection.
- Implemented a complete Employee management system with advanced search, filtering, sorting, pagination.
- Enabled Excel report generation for exporting all employee records. Built a Employee Management System secured using User/Admin role-based authentication (JWT)
- Featuring an Admin dashboard for employee data visualization (graphs & reports)
- Built responsive UI with Bootstrap 5 styling, data grids, and loading indicators for modern user experience.
- Gained hands-on experience in C#, .NET Core, SQL Server, EF Core, jQuery, and JavaScript through real-world development tasks
- Developed and maintained full-stack modules using ASP.NET Core MVC, Razor pages, and REST API integrations.

.NET Developer Intern

TSS CONSULTANCY PVT LTD

Rajkot, India

01/2025 - 04/2025

- Gained hands-on experience in C#, .NET Core, SQL Server, EF Core, jQuery, and JavaScript through real-world development tasks
- Developed and maintained full-stack modules using ASP.NET Core MVC, Razor pages, and REST API integrations.
- Implemented CRUD operations, form validations, and interactive UI behavior using jQuery and JavaScript for improved user experience
- Designed and optimized SQL Server tables, stored procedures, joins, indexing, and complex query logic for performance-driven data operations.
- Worked with Entity Framework Core, applying Repository and Unit of Work patterns to maintain clean, scalable architecture
- Participated in code reviews, followed Git branching workflows .
- Full-stack Crud Project featuring advanced filtering, sorting, pagination, responsive UI, AJAX-based modals, and EF Core-driven database design.

Projects

Employee Management System

- Developed a full-stack Employee Management System using ASP.NET Core MVC and Entity Framework Core (Code-First) with a fully normalized and indexed SQL Server database.
- Implemented Repository and Unit of Work patterns for clean architecture and maintainable data access.
- Built server-side pagination, dynamic search, sorting, and multi-parameter filtering using LINQ and optimized EF Core queries.
- Integrated Stored Procedures for complex queries and performance-critical operations to improve execution efficiency.
- Implemented secure JWT Authentication and Role-Based Authorization with claims-based identity.
- Designed responsive UI using Bootstrap and jQuery, with AJAX-based CRUD operations and modal-driven forms.
- Ensured secure async CRUD operations, model validation, anti-forgery protection, and centralized exception handling middleware.
- Improved performance using AsNoTracking, projection queries, indexing strategies, and optimized query execution plans. Built responsive UI with Bootstrap and jQuery

Skills

- Frontend | React | JQuery | HTML | CSS | Bootstrap
- Backend | ASP.NET Core | ASP.NET MVC | Entity Framework Core | LINQ | SQL Server
- C# | JavaScript | OOP

Education

Bachelor of Technology 7.5 CGPA

Marwadi University

Rajkot, Gujarat, India

2022-2026

Certificates

- Intellify Hackathon participation Certificate organized by Marwadi University.
- .Net Internship in Tss Consultancy Pvt Ltd
